ISO 14001: 2015 Cert. No.: 741713  
ISO 45001: 2018 Cert. No.: 716319

M.O.P.S Sdn. Bhd is an established Bumiputra company of Brunei Darussalam located in Kuala Belait. Our vision is to be the most successful and reliable bumiputra company providing quality services through highly trained, competent & motivated workforce who could meet our client's satisfactions and conduct business honestly, fairly, in line with the nation's aspiration creating new career opportunities and developing existing local Bruneians.

We, here at MOPS, have a strong sense of goals and objectives with qualified teams of professionals and vast experiences, specializing in Blasting Painting and Scaffolding services.

We focus to deliver the best quality services with highest safety standards. The journey could inspire more and more Bruneians into business ventures and strengthen the economy of the nation.

# Blasting and Painting

MOPS owns a vast asset of equipment for Blasting and painting operations for offshore and onshore locations. All equipment are well maintained with the required inspections and certifications.

MOPS is the leading service provider for onshore and offshore surface preparation, protective coating & scaffolding services. We have been decisive and implemental in the progress in this field and provide our customers with the most diverse solutions for a cost-efficient and long-lasting protection of their installations.

MOPS Operation team works closely with the clients to determine which types of abrasive/blasting media, paints, primers, and coatings will be optimal for the job and yield the best results. Whether dry-blast, vapour abrasive blast or bristle blast and coat a structure, piping or internal part with any type of coating systems, we have the solutions and will bring them to your door.

MOPS was awarded with its first offshore painting contract by Brunei Shell Petroleum in 2007 to protect all assets and ensure integrity for all types of offshore structures. Our performance as a leading Blasting Painting and Scaffolding Bumiputra company enabled to win the major offshore painting activities for East Asset of Brunei Shell Petroleum in 2014. MOPS has been offering comprehensive repair, protection, prevention and maintenance surface preparation / protective coating solutions for Brunei's offshore live hydrocarbon facilities. We strive for excellence in our services with the highest quality and responsibility.

In recognition for MOPS successful track record and extensive performance achievement, MOPS was again honored by Brunei Shell Petroleum by awarding Integrated Fabric maintenance contract to east asset in 2021 under new management and organization.

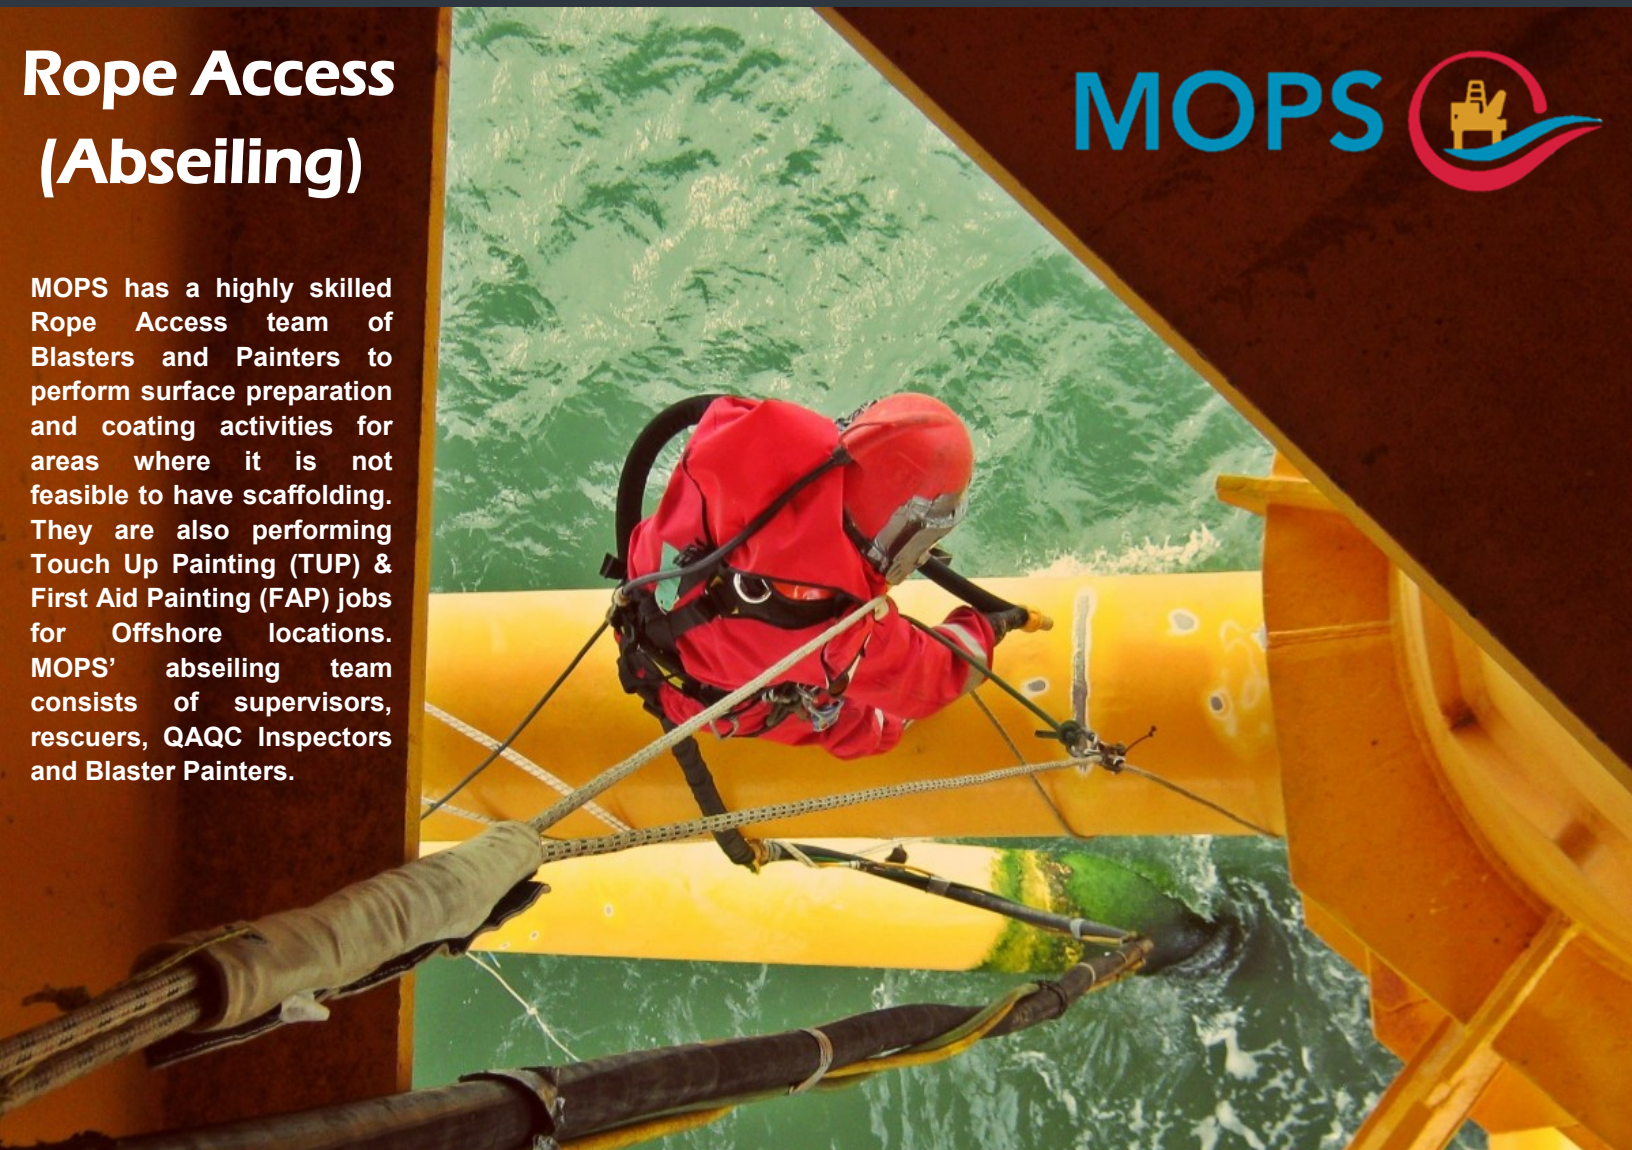

All surface preparation and painting activities are performed by a highly trained workforce mostly local Bruneians in achieving the highest quality standards in compliance to the ISO 9001:2015, ISO 14001:2015 & ISO 45001:2018 requirements. We have dedicated QAQC and HSE personnel at each site to ensure that the Quality and HSE requirements are fulfilled throughout.

**"TEAMWORK ... We Work as a TEAM to Achieve our Goals"**

## **Rope Access (Abseiling)**

MOPS has a highly skilled Rope Access team of Blasters and Painters to perform surface preparation and coating activities for areas where it is not feasible to have scaffolding. They are also performing Touch Up Painting (TUP) & First Aid Painting (FAP) jobs for Offshore locations. MOPS' abseiling team consists of supervisors, rescuers, QAQC Inspectors and Blaster Painters.

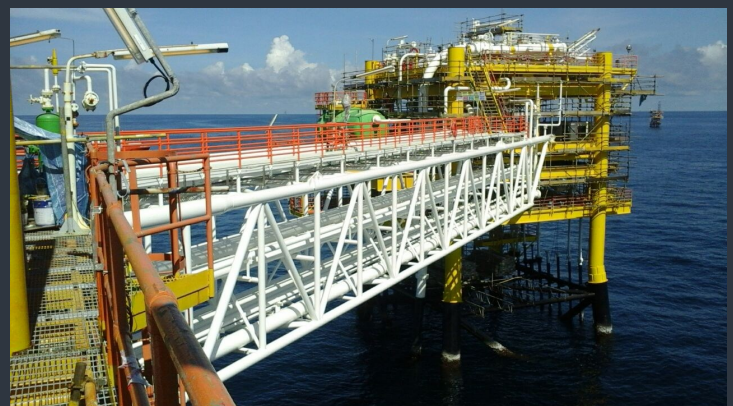

## Scaffolding—Working at Height

MOPS is one of the most reputable scaffolding companies in Brunei for offshore and onshore scaffolding services. MOPS is committed to continuously achieving excellent safety standards, providing the best quality scaffolding services and products to clients. MOPS is only employing highly qualified and experienced scaffolding operatives and staff fully coordinated by Local Bruneians. We are dedicated to provide innovative, sustainable and safe, access, protection and support solutions – on any scale – to the industry.

At the forefront of Brunei's scaffolding industry, MOPS consistently strives to not only have excellent HSEQ (Health Safety Environment and Quality) standards, but to set a benchmark for competitors in the scaffold industry to aim for.

# VAPOUR ABRASIVE BLASTING

MOPS is one of the approved contractors under Brunei Shell Petroleum and Government sectors for Vapour Abrasive Blasting. It is a process for surface preparation and cleaning using pressurized water and abrasive blast media. For our dustless wet abrasive blasting projects, we use EcoQuip® blast equipment, renowned for its advanced technology, EcoQuip® ensures consistent satisfaction even for the most challenging projects. The water mist suppresses dust, creating a cleaner work environment. Vapor blasting is gentle on various surfaces, making it suitable for a wide range of applications. For more information, please contact us.

**Exclusive Dealer of International Paints in Brunei Darussalam**

# Offshore Catering Services

**We provide catering, housekeeping, cleaning & laundry services to onboard offshore installation, ships, barges & onshore accommodation camp which include the provision of supply of food, catering equipment & maintenance of accommodation & kitchen facilities.**

## INSPECTION SERVICES – PROTECTIVE COATING

Corrosion and Protective coating have always been in the top list of the asset owner, since he wants to be confident that a quality work is executed as per the industrial standards. It is to ensure that the onshore and offshore assets are protected for a long time with minimal future repairs. Independent Coating Inspection Services help any asset owner of industrial and commercial structures mitigate the risks of corrosion by verifying the quality of protective coating systems. Assurance on quality during surface preparation and coating application is vital in controlling corrosion related issues. MOPS also provide inspections services to verify that the contractor's QC practices are adequate to achieve the desired final product according to the painting specification. Our QC inspectors provide independent QC Inspections for clients and contractors for Brunei Shell Petroleum and other projects.

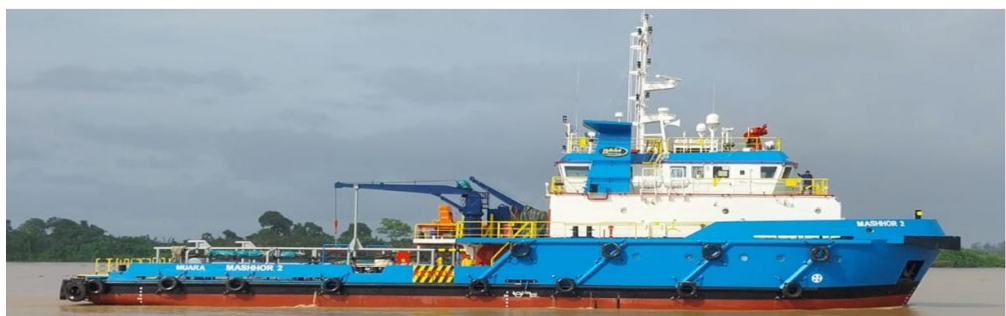

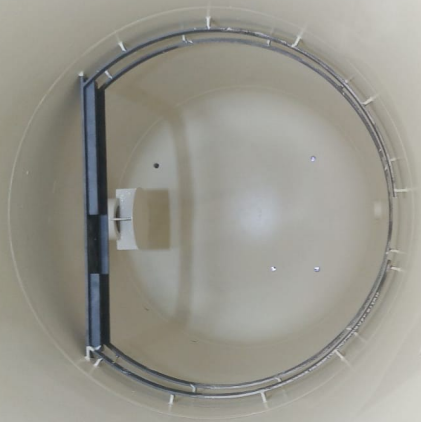

# MOPS Vessel Fleet

M.O.P.S Sdn Bhd possesses the fleet of vessels necessary to carry out its significant offshore painting operations. Additionally, MOPS provides vessels to clients for both long & short term chartered hire.

## Vessel Internal Lining

MOPS has registered a good track record in Internal Vessel Painting under BSP/Aker Solutions for ORMC since 2017. We have a team of professionals in Internal Vessel Painting and Surface Preparation complete with full set of required equipment, competent in the applications of paint systems for both pressured vessels and storage tanks.

We have successfully completed the application of fast-curing paint for BSP major Turn-Arounds/Shut-down activities and an approved contractor under Brunei Shell Petroleum (BSP) for the application of fast curing paints.

MOPS has developed equipment, tools and a special team for addressing all small bore vessels and flanges which has become a novel and quality practice in protecting areas where man entry is not possible.
